J.A. Culican : Keeper of Dragons: The Elven Alliance (Keeper of Dragons, Book 2) (The Keeper of Dragons) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Keeper of Dragons: The Elven Alliance (Keeper of Dragons, Book 2) (The Keeper of Dragons):

By The Mysterious Customer Farros, elden, elves, trolls, along with great action and adventure, and even romance? Oh my has this book held up to the strong standard set in book 1! Only one considerable problem: there's a freaking cliffhanger! JA Culican that's awfully unfair to spring in a reader without warning (like, you know, in the blurb). As for anyone reading this review, though, you can pretty much avoid it by stopping at the 97% mark. I wish I'd known. I still would've bought the book because book 1 was too good not to try book 2, but I might have held in to it until book 3 comes along (please, please, JA Culican, hurry up with book 3) ... unless someone else had advised to stop at 97%, then I would've done just that as it's worth doing - this book was just good and really fun. Still recommended strongly. Subtract 1 (not 2) stars if you simply can't stand cliffhangers of any sort. Possibly add a star if they just don't matter to you. 3 of 3 people found the following review helpful. Page turner By Liliyana The exciting sequel to The Prince Returns, The Elven Alliance ramps up the action and adventure to a whole new level. Packed with heart racing and heart warming moments, this latest installment in the series is a must read for fantasy and adventure lovers alike. Get caught up in the excitement with Cole and Eva as they explore their new roles and learn to work together. 3 of 3 people found the following review helpful. Dragons and Their Helpers By D. R. Smith, Avid Reader I'm angry!!! I didn't know there was going to be a cliff hanger, so, now I need to know when the next book will be available for purchase and what the title will be. I liked this book and it's characters. Will the missing be found? What is going to happen next?

The fates have spoken. Cole and Eva are the Keeper of Dragons - the only ones who can save all true beings from a time of fear.

"If you're a fan of high adventures and dragon-shifters, pick up this book. I guarantee it's for you." -Lisa M. Eiff, Good Reads That Stick With You blog "I enjoyed this as much as the first book. It is witty, entertaining, imaginative, and full of adventure. I love the dragon world that the author has created and how they can switch between Dragon and Human." -Mike Shelton, author of the Alaris Chronicles From the Author #Interactive
